

CNYAMT Virtual Recital Guidelines for Parents and Students

- Submit your video to your *teacher* by the deadline established by your teacher.
- Follow these suggestions for creating best video results:
 1. Lighting: Make sure the student and the instrument are well-lit, with light in front, rather than behind and no noticeable clutter in the picture. Remember that this video is for public viewing!
 2. Performance Attire: Keep in mind that this is a themed recital and it is encouraged that you dress accordingly. Have fun decorating the viewing area as well. REMEMBER to wear your shoes!
 3. Camera View: Set the camera for best performance position.
 - Pianists**: full view to include the piano keys and hands.
 - Instrumentalists and vocalists**: upper-torso height with the music stand low enough so that it doesn't block the view of the soloist.
 4. Students: If possible please introduce yourself along with the name of the piece you are performing *at the beginning* of the video.
 5. Record as many takes as you need until you are happy with the performance.

The final video will be posted on our CNYAMT YouTube Channel
with a link posted at our website: www.cnyamt.org.
